

Staffing the **Right Way**

Pragmatic Works Technically Validates Resources to Provide Your Company with the Perfect Professionals

Pragmatic Works understands how important the right team is. Bringing on the wrong resources can result in lost project time and more importantly, wasted costs, setting you up for a major setback. Unlike traditional staffing agencies, we take a modern approach to staffing by ensuring you have the right resources with the technical skills to match your company's needs and that those resources are backed by our consulting team experts.

Our clients often use this program to fill short and long term staffing needs for a variety of data and IT professional roles. Rest easy knowing Pragmatic Works has personally technically validated your resource and will fully support them throughout their time with your organization.

WE CAN HELP YOU FIND EXPERT-LEVEL PROFESSIONALS IN A VARIETY OF CATEGORIES

- Database Administrator
- Database Developer
- Application Developer
- Solution Architect
- Analytics and Big Data Developer
- Data Scientist
- Analyst
- Report Developer
- Project Managers
- AND MORE!

ADVANTAGES OF PRAGMATIC WORKS STAFFING

- **Top, Local Talent** – Qualified by our Technical Leadership to ensure success
- **Expert Backed and Supported** – Our consulting team experts stand behind your resource throughout the engagement
- **Save Costs** – Avoid expensive FTE overhead costs
- **Save Time** – Let us take the time to sift through the pool of resources and hold time-consuming technical interviews
- **Flexibility** – Scale your team as you need, for as long as necessary
- **Eliminate administrative complications** – Payroll, benefits, performance reviews, etc.
