

Dashboard in a Day

This class is designed to accelerate your Power BI experience with a comprehensive training in a single day led by a certified Microsoft Partner. In this all-day interactive training, you will learn how to analyze your data in a rich and compelling way. Whether you are evaluating its ability to meet organizational requirements around data visualization and analysis or are looking to learn how it can help you be more efficient and make a greater impact on the work you do every day.

After this course you will better understand how to:

- Connect to, import, and transform data from a variety of sources
- Define business rules and KPIs
- Explore data with powerful visualization tools
- Build stunning reports
- Share dashboards with their team and business partners, and publish them to the web

Download the lab manual and datasets here:
