

Pragmatic Works HACKATHON

AZURE DATA SERVICES

With a **Pragmatic Works Hackathon** you can gain deeper insights from your data and use them to meet your specific information needs — leading to more informed decisions. Our goal is to help sharpen minds and make professional and corporate advancements tangible. We'll help you channel innovation into a focused effort and turn your existing team into experts, fully capable of both implementing and maintaining your solution. With our expertise, we'll help you take what you learn and apply it to your own data with confidence.

Azure Data Services allow your business to innovate faster and unlock your data's potential. Use the tools and technologies of your choice, including open source, to build intelligent apps and deploy them anywhere. Microsoft's Azure data services offers services for a wide-variety of data-related needs, giving you flexibility, plus the performance, scalability, and security of the cloud.

Empower your team to achieve more in a short and manageable timeframe by taking the topics learned during class and applying them to your own data to increase your team's proficiency.

OVERVIEW

A Pragmatic Works Azure Hackathon equips teams to build real-world solutions using Azure services. With expert guidance, hands-on training, and collaboration, participants gain cloud computing, data analytics, and application development skills to innovate and optimize their organizations.

WHAT YOU'LL LEARN

- **Accelerate Azure Adoption:**
Discover how to leverage Azure data services efficiently, enabling quick implementation with minimal investment.
- **Maximize Data Potential:**
Equip your team with the skills and tools needed to unlock insights from your data, no matter where it resides.
- **Explore Azure Technologies:**
Gain a comprehensive understanding of the tools and technologies available within Azure data services.
- **Practical Application:**
Apply classroom knowledge directly to your own data, turning learning into actionable results.
