Pragmatic Works
HACKATHON

POWER APPS

With a **Pragmatic Works Hackathon** you can gain deeper insights from your data and use them to meet your specific information needs — leading to more informed decisions. Our goal is to help sharpen minds and make professional and corporate advancements tangible. We'll help you channel innovation into a focused effort and turn your existing team into experts, fully capable of both implementing and maintaining your solution. With our expertise, we'll help you take what you learn and apply it to your own data with confidence.

Power Apps is part of the Microsoft Power Platform that allows citizen developers to build custom business apps for web or mobile use and drive process automation, all with a low or no-code approach. Power Apps leverages the features of Office 365 and the Microsoft platform to build apps in hours, not months.

Empower your team to achieve more in a short and manageable timeframe by taking the topics learned during class and applying them to your own data to increase your team's proficiency.

OVERVIEW

A Pragmatic Works Power Apps Hackathon is a hands-on event where teams build custom apps to solve real-world challenges. With expert guidance, tailored training, and collaboration, participants create impactful solutions, gain Power Apps skills, and leave equipped to innovate and enhance efficiency within their organizations.

WHAT YOU'LL LEARN

- **Quick App Development:**
  Master the basics of building apps for your business with minimal investment and time.

- **Team Empowerment:**
  Gain the skills to teach your team how to create custom mobile and web apps tailored to your needs.

- **No Coding Required:**
  Discover how anyone on your team can build apps effortlessly, without needing developer expertise.

- **Application Design Approaches:**
  Explore both canvas and model-driven methods for building powerful applications.
