

Pragmatic Works HACKATHON

POWER AUTOMATE

With a **Pragmatic Works Hackathon** you can gain deeper insights from your data and use them to meet your specific information needs — leading to more informed decisions. Our goal is to help sharpen minds and make professional and corporate advancements tangible. We'll help you channel innovation into a focused effort and turn your existing team into experts, fully capable of both implementing and maintaining your solution. With our expertise, we'll help you take what you learn and apply it to your own data with confidence.

Power Automate is part of the Power Platform suite of tools. You can use Power Automate to easily create automated workflows to improve productivity with business process automation. Use Power Automate to design logic for your Power Apps with the point and click flow designer instead of having to write code, as well as to guide your app users through processes.

Empower your team to achieve more in a short and manageable timeframe by taking the topics learned during class and applying them to your own data to increase your team's proficiency.

OVERVIEW

A Pragmatic Works Power Automate Hackathon empowers teams to streamline workflows by building real-world automation solutions. With expert guidance and hands-on training, participants learn, collaborate, and create impactful automated processes that drive organizational efficiency and innovation.

WHAT YOU'LL LEARN

- **Quickly Automate Workflows:**
Acquire the tools to automate your business workflows efficiently, saving time and resources with minimal investment.
- **Streamline Processes:**
Learn to eliminate repetitive tasks and design paperless processes to enhance efficiency.
- **Boost Team Productivity:**
Discover how to build workflows that save time and help your team focus on high-value tasks.
- **Enable Secure Automation:**
Empower your team to automate tasks securely, leveraging the benefits of cloud-based data protection.
