

Pragmatic Works HACKATHON

POWER BI

With a **Pragmatic Works Hackathon** you can gain deeper insights from your data and use them to meet your specific information needs — leading to more informed decisions. Our goal is to help sharpen minds and make professional and corporate advancements tangible. We'll help you channel innovation into a focused effort and turn your existing team into experts, fully capable of both implementing and maintaining your solution. With our expertise, we'll help you take what you learn and apply it to your own data with confidence.

Power BI is the powerful and highly popular business analytics service by Microsoft. With Power BI you can unify data from many sources and create interactive dashboards and reports that can be shared across your organization. Power BI is easy to use and creates a data-driven culture and allows you to gain deeper insights from your data for better business decisions.

Empower your team to achieve more in a short and manageable timeframe by taking the topics learned during class and applying them to your own data to increase your team's proficiency.

OVERVIEW

A Power BI Hackathon is a hands-on event where teams leverage data to solve real-world challenges. With expert guidance, tailored training, and collaboration, participants create impactful solutions, gain Power BI skills, and leave equipped to innovate and enhance efficiency within their organizations.

WHAT YOU'LL LEARN

- **Rapid Reporting Implementation:**
Master the ability to take charge of your reporting quickly and with minimal investment.
- **Enhanced Data Visualization:**
Discover how to create a dynamic presentation layer with reports, dashboards, and more.
- **Tailored Insights:**
Learn to leverage your company's existing ecosystem to create customized reports using your own data.
- **Empowered Teams:**
Equip your team with the tools and knowledge to unlock the full potential of your business data.
